

GREEKS GO GREEN

BIN OUTFITTING PROGRAM CONTRACT

The _____ chapter of _____
Chapter Name Fraternity or Sorority Name

Fraternity/Sorority at the University of Oregon, with completion of this contract, will be signed into the bin outfitting program through the UO Zero Waste Program. Upon this agreement, the chapter will receive _____ individual recycling bins to outfit rooms of their chapter house at no cost to the chapter. The following conditions must be adhered to:

1. The bins may only be used in the chapter house.
2. If the chapter finds that more bins are needed (for new purposes, not replacing missing or damaged bins), the chapter may request additional bins from the UO Zero Waste Program at no cost. An assessment of the need of these bins will be conducted by the UO Zero Waste Program.
3. An annual assessment will be conducted at the beginning of Fall Term during recertifications by the UO Zero Waste Program to ensure that the bins are in their proper place (no missing or damaged bins).
4. Costs for the missing or damaged bins will be billed to the chapter, and replacement bins purchased and given to them.
5. A chapter may order replacement bins at any time (with the costs billed to the chapter) from the UO Zero Waste Program.
6. The chapter must either purchase trash bins to sit next to each recycling bin, or require that individual member bring their own trash bin (when utilized in personal rooms). The presence of the trash bins must be confirmed by the UO Zero Waste Program in order for the recycling bins to be given to the chapter. These trash bins will also be checked upon recertification.
7. Failure to comply with this contract, or to pay for missing bins, will result in the elimination of the Zero Waste Certification for the chapter until the bins can be paid for and replaced.

I agree to the above conditions.

President
